On January 17, 2007, the Nebraska Public Service Commission (Commission) opened this docket to investigate time release intervals for participants of telephone calls once a disconnect signal or on-hook signal is detected.

A workshop was held on February 26, 2007, and interested parties discussed issues surrounding switch functionality as it relates to the release of telephone lines after a disconnect or on-hook signal is received by the switch. It was determined that further investigation and information gathering was necessary before a course of action could be recommended. Therefore, I find that a second workshop in the above-captioned docket should be held on **Tuesday, May 8, 2007, at 1:30 p.m.** in the Commission Library, 300 The Atrium, 1200 N Street, Lincoln, Nebraska.

O R D E R

IT IS THEREFORE ORDERED that a workshop in the above-captioned docket be, and it is hereby, scheduled for **May 8, 2007, at 1:30 p.m.** in the Commission Library, 300 The Atrium, 1200 N Street, Lincoln, Nebraska

MADE AND ENTERED at Lincoln, Nebraska, this 2nd day of April, 2007.
